WORKS**

*Saving Water
for Glendale*

City of Glendale
Public Works Department
Reclaimed Water
Conversion Project

" . . . Serving Our City With Pride "

Information (818) 548-3950

The Purple Works Project will:

- Convert all Public Works water using vehicles from potable to reclaimed water.
- Include conversion of all sewer and storm drain flushing operations, all street sweepers, and all water tank activities such as watering trees and dust control on construction sites.
- Support the Glendale Fire Department utilizing reclaimed water for their training operations at City Corporation Yard.
- Convert Public Works vehicle washing system to utilize reclaimed water for washing City equipment.
- Save 4.2 million gallons of potable water each year.
- Save thousands of dollars annually on City's water bills.
